290 SERIES

A long lasting solution with a solid performance.

The ideal tripod to develop your skill and passion for photography and video further.

Essential performance!

290 SERIES

Strong, stable and trustworthy, the brand new 290 series provides the ideal tool for emerging and improving hobbyist photographers to develop their skills and passion for photography and video. Key features unique to this product's category include the professional aluminum and adjustable leg locks for unsurpassed stability. Thanks to highly durable materials, sturdy construction and intuitive ergonomic controls, the 290 is an excellent solution that serves photographers for an extensive period of time.

The removable head of the 290 allows the photographer to mount all original Manfrotto accessories, thereby upgrading to more sophisticated heads as skills improve and technical needs develop. It comes in various popular sizes and kits, and is extremely versatile and lightweight, an ideal tool when traveling to make the most of your shooting experience and ensure maximum precision.

KEY FEATURES

- Interchangeable heads
- Professional grade adjustable aluminum leg locks
- Special anti-shock collar
- Innovative 3-faced design column
- Large tubes and the new top casting made with high quality aluminum
- Compatible with original Manfrotto accessories

KEY BENEFITS

- Versatility and upgradeability
- Intuitive, easy and safe ergonomic controls
- Highly durable and lightweight aluminum construction
- High performance (stable and precise)
- Compact and light

Increase the accuracy of your pictures with the innovative 3-faced design column.

A rock solid and reliable support with professional grade, adjustable aluminum leg locks.

SERIES LINE UP

294 LARGE TRIPOD AND KITS

The large tubes ensure a professional grade performance and rigidity to capture every detail. The kit is either combined with a 3-way head to ensure maximum precision or with a ball head to provide rapid movement.

293 REGULAR TRIPOD AND KITS

Regular format tubes provide the best balance between stability and lightweight qualities. The 293 regular kits are available with a 3-way head to provide maximum precision or a ball head to ensure rapid and smooth movement.

293 COMPACT KITS

Ideal for traveling: thanks to its compact tubes, the 293 compact series is built to match the passion of traveling photographers who want to capture every detail. The kit is either combined with a 3-way head to ensure maximum precision or with a ball head to provide rapid movement.

294 MONOPODS

The 294 monopods are the best solution for portability and lightweight qualities. The large tubes guarantee great performance and rigidity. The 294 monopods are available in two different versions.
